Enhanced Comfort for Unique Multi-Room Heating and Cooling Needs

## Innovation Since 1902

Carrier has been the world's leading indoor comfort innovator since 1902. Today, as the world's largest manufacturer of HVAC systems and equipment, we ship a new product every three seconds. But we deliver more than just the hardware. We provide innovative total comfort solutions backed by world-class factory support. So when your comfort challenges demand Duct-Free systems, one name should come to mind: Carrier.

# Things to Consider Before You Buy

## A Comfortable Fit for Your Home

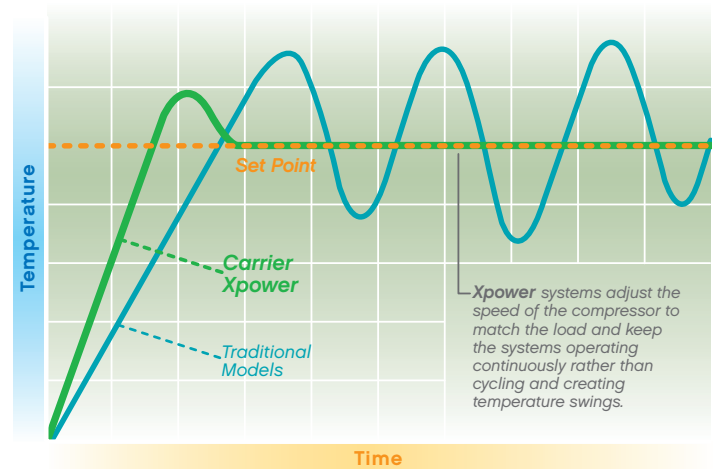

Your home is your refuge. It's the one place you are in total control of your comfort. However, not all living spaces are a comfortable fit with traditional forced-air heating and cooling systems. That's why Carrier offers a comprehensive family of duct-free high wall comfort systems. Designed to provide comfort where typical forced air systems can't, and offering a more elegant solution than a window unit, the Carrier® Performance™ Series GXM Xpower® Duct-Free High Wall Heat Pump System could be the perfect solution for outstanding comfort and even better economy.

- Xpower systems deliver high-efficiency, up to 14.5 SEER and 8.5 HSPF for lower operating costs
- GXM Xpower systems allow for multi-room installations using one outdoor unit
- Added flexibility with the option to add additional units at a later time
- Four fan speeds allow you to customize your comfort as conditions change

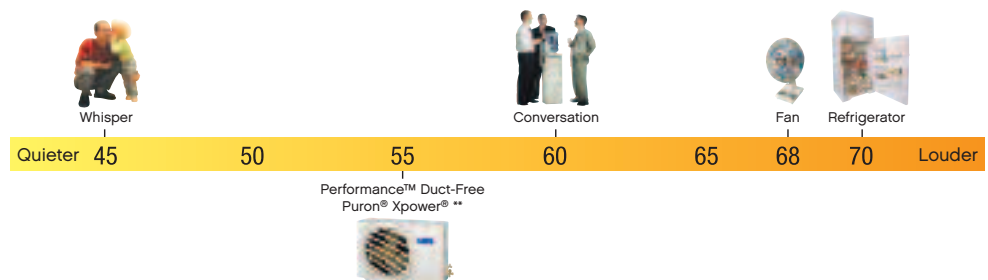

## The Comfort of Xpower

Whether you're entertaining in a new game room, relaxing in a sun room or enjoying a vigorous workout in an exercise room, Carrier delivers the enhanced comfort you deserve with the GXM Xpower Duct-Free High Wall Heat Pump System. Xpower technology adjusts system operation as conditions change to provide the best combination of comfortable environment and money-saving energy efficiency. And you won't believe the comfort as conditioned air is quietly and gently directed to every corner of the room.

- Living space remains consistently comfortable without the up and down temperature swings of fixed speed systems
- Nearly continuous operation allows the system to spend more time providing comfort-enhancing humidity control
- Rapid pull down feature enables the system to quickly achieve desired comfort
- Enjoy quiet comfort with sound levels that fall comfortably between a whisper and an average conversation

## Comparative Sound Ratings (decibels)

\*\* Per standard testing as described by ARI 270-95. Other sound levels, mentioned for comparison, as published at <http://www.nidcd.nih.gov/health/hearing/ruler.asp>.

## A Comfortable Fit

The Carrier® GXM Xpower® Duct-Free High Wall Heat Pump System is designed to be a comfortable fit for virtually any living space – no ductwork required. A slim, compact cabinet sits unobtrusively on the wall, discreetly blending into most interior decors. Designed to use environmentally-sound Puron® refrigerant, it's also a fully featured system that couldn't be easier to operate and maintain.

- Take control of your comfort with the sophisticated yet intuitive, easy-to-use infrared remote with LED temperature display
- Customize your comfort with motorized louvers that can sweep to spread conditioned air or be “locked in” to focus comfort on a specific area
- Enjoy the economy of comfort when you are using the space, without conditioning the entire home
- Leave the system off while you're away and let the built-in timer turn it on automatically for comfort when you return
- Sleep mode automatically adjusts temperature and fan speed at night for additional money savings
- Safer and much more elegant than a window unit and less obtrusive than a portable air conditioner
- Maintain your comfort with an easy-to-remove filter that can be cleaned in a utility sink
- Experience peace of mind with the full backing of Carrier's nationwide network of Expert dealers

Extra-efficient, exceptionally quiet, and backed by the innovative leader in indoor comfort systems, a Carrier GXM Xpower Duct-Free High Wall Heat Pump is a great choice for your unique heating and cooling needs.

The Carrier Duct-Free High Wall systems deliver environmentally-sound comfort with Puron refrigerant.

### Indoor Unit – Heat Pump – Variable Speed System – Performance™ Series

Nominal Capacity/Btu/Hr	Model	Power Indoor	Dimension Indoor (WxDxH in.)	Low-Speed Sound Rating (dBA)*
9,000	40GXM009---3	208/230v	30x10x8	31
12,000	40GXM012---3	208/230v	33x11x9	33
18,000	40GXM018---3	208/230v	40x12x9	41

\* Sound pressure. Per standard testing as described by ARI 270-95. For rating details, please refer to the product data.

### Outdoor Unit – Heat Pump – Variable Speed System – Performance™ Series

Nominal Capacity/Btu/Hr	Number of Ports	Model	Power Outdoor	Dimension Indoor (WxDxH in.)	Low-Speed Sound Rating (dBA)*
18,000	2	38GXM218---3	208/230v	33x27x12	57
24,000	2	38GXM224---3	208/230v	37x33x17	57
30,000	4	38GXM430---3	208/230v	37x33x17	59

\* Sound pressure. Per standard testing as described by ARI 270-95. For rating details, please refer to the product data.

#### Model 38GXM

This matched horizontal discharge outdoor unit features a small footprint that can be installed easily in tight quarters such as a balcony. Multi-port design allows installation of up to four indoor units with one outdoor unit.

## Limited Warranty

The Carrier Duct-Free High Wall systems provide dependability backed by written warranty protection. The compressor is protected by a six-year\* limited warranty. The entire system is covered by a two-year\* limited warranty. Extended warranties are also available. Ask your Carrier dealer for details.

\*Owner-occupied, single-family residential applications only. See warranty card for more details.

## Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier® systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
