Zoned Comfort with the Infinity Touch Control®

When you install the Infinity® Touch Control as part of a Carrier® Infinity zoning system, you have one-touch temperature control in up to eight separate rooms or zones within your home.

• Customized Comfort
Separate controls of multiple zones can significantly reduce hot and cold spots for more even, consistent comfort. Enjoy maximum efficiency with comfort precisely where and when you need it so you aren’t spending money heating or cooling unused rooms.

• Customized Zone Names
Creating a customized name for each zone makes it easier to monitor comfort levels or create new settings for the correct areas.

• Zoned Ventilation Settings
To help ensure all of your patented fan control lets you adjust fan speeds for your Infinity system at a different time schedule for each zone.

• Flexible, Seven-Day Programmability
Make your comfort and energy savings customized to fit your lifestyle. Infinity Touch Control+ allows for up to eight different areas of your home to have different settings for different days.

• Convenience and Control
A smart sensor or remote room sensor in each zone monitors individual zone temperatures and allows you to adjust the temperature setting for that zone.

The baby’s room needs to be warm and cozy. The bedroom needs to be cool and dry, and the kitchen should be set for high humidity to inhibit the growth of mold and mildew.

The Total Indoor Comfort System

Infinity Air Conditioner provides reliable, high-efficiency cooling for your home with effective dehumidification.

Infinity Gas Furnace provides reliable, high-efficiency heating for long-lasting comfort and energy savings.

Exhaustor® is a filtered, high-performance outdoor air exchanger that improves indoor air quality by capturing and reducing airborne pollutants in your home.

Ventilator combines fresh air with conditioned indoor air for improved air quality and comfort in your home.

Infinity Air Purifier improves indoor air quality by eliminating odors, mold, viruses and other small particles that may be present in your home.

Infinity® Touch Control provides reliable, high-efficiency heating for long-lasting comfort and energy savings.

UV Lamp inhibits the growth of contaminants on the indoor coil, keeping your home with cleaner, fresher air.

Infinity Touch Control+ allows you to control different areas of your home at different times and temperatures. It’s your interface to the Infinity system that allows you to control temperature, humidity and ventilation.

W illie Carrier’s meticulous attention to quality and detail led to a major culture shift in the way we live indoors. More than a century later, Carrier Corporation operates with a unique willingness to develop new technology, the confidence to revise proven designs and the ability to deliver results with every new creation.

Part of that equation is our nationwide network of experts you can turn to for all of your indoor comfort needs. Your local Carrier dealer is well equipped to evaluate your home — everything from size, window placement, ductwork, zoning and other structural specifics — and create a customized system designed around your lifestyle. So when it’s time to make a choice for your family’s comfort, make the best decision you’ll ever make — Carrier — and let the experts do the rest.
When you install the Infinity® Touch Control as part of a Carrier® Infinity zoning system, you have one-touch temperature control in up to eighteen separate rooms or zones within your home.

- **Customized Comfort**: Separate control of multiple zones can significantly reduce hot and cold spots for more even, consistent comfort.

- **Customized Zone Names**: Creating a customized name for each zone makes it easier to remember comfort levels or create new settings for the correct areas.

- **Zoned Ventilation Settings**: To help optimize airflow, our patented fan control lets you set different fan speeds for your Infinity system at a different schedule for each zone.

- **Flexible, Seven-Day Programmability**: Makes comfort and energy savings a priority with a separate comfort schedule in each zone.

- **Convenience and Control**: A small sensor or indoor room sensor in each zone monitors individual zone temperatures and allows you to adjust the temperature setting for that zone.

The baby’s room needs to be warm and cozy, the basement needs to be cool and dry, and the kitchen can be adjusted at any time. Zoning keeps different areas of your home for truly customized comfort and enhanced utility savings. It’s your interface to the Total Indoor Comfort System.

The Total Indoor Comfort System

- **Infinity® Air Conditioner**: Provides reliable, high-efficiency cooling for years of comfort and energy savings.

- **Infinity® Gas Furnace**: Provides reliable, high-efficiency heating for long-lasting comfort and energy savings.

- **Exhaustor®**: Monitors indoor air quality by capturing dust, mold, and pollen particles in your home.

- **Ventilation**: Combines fresh outdoor air with conditioned fresh air for improved air quality and increased comfort.

- **Infinity® Touch Control**: It’s your interface to the Total Indoor Comfort System that allows you to control temperature, humidity, air quality, fan speeds and ventilation.
Carrier gives you ultimate command of comfort, performance and energy savings when you include an Infinity Touch Control. Infinity Touch controls the temperature at which you feel most comfortable. That’s why Carrier always monitors your comfort, heat pump featuring Ideal Humidity System technology continually monitors indoor humidity, indoor temperature and outdoor temperature, and has the ability to turn on your comfort system just for dehumidification in the cooling season or humidification in the heating season.

The Carrier® Infinity® Touch Control represents years of design, development and testing with one goal in mind—making you more comfortable. We have taken the lead in creating new technologies that deliver the comfort and efficiency you deserve while staying ahead of industry trends and global advancements.

The Infinity Touch Control, when combined with a Carrier Infinity furnace, heat pump, Ideal Humidity System, GreenSense® intelligence, gives homeowners high performance comfort. GreenSense intelligence constantly matches the heating or cooling demands of the home. This translates into reduced energy use and reduced temperature swings throughout the home.

The carrier hybrid heat dual-fuel system will automatically switch between electric and gas heating as needed to keep your home comfortable all winter long while optimizing the efficiency of each fuel source.

You can’t control the weather outside, but you can access the latest, five-day weather forecast for your area. Weather information is targeted according to zip code.

Transform your Infinity Touch Control into a priest home by uploading a photo, then earn extra miles! Additional information on the Carrier® Infinity® Touch Control.

Three included faceplates—silver, black and white—allow you to change the color of the Infinity Touch Control to best match your home interior and your personal preference.

Limited Warranty

Infinity Touch is designed to deliver long-lasting comfort and reliability. The Carrier® Infinity® Touch Control is covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. This limited warranty is non-transferable from one owner to another.

To the original owner, the Carrier® Infinity® Touch Control is covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation.

This smart system can even monitor operation and health status and provide service reminders such as when it’s time to change the filter.

Innovation and the Environment

Over 100 years ago, a humble but determined engineer solved one of mankind’s most elusive challenges by controlling the indoor environment. A teaching engineer by day, Dr. Willis Carrier would go on to file more than 80 patents over the course of his lifetime. His genius would enable incredible advancements in healthcare, manufacturing processes, food preservation, art and historical conservation, indoor comfort and much more.

Carrier’s today changed the world forever and paved the way for over a century of once-impossible innovations. Yet in addition to being an accomplished inventor, he was also an avid outdoorsman. Carrier recognized the power and beauty of the natural environment. This Corporation of his world and its resources continues to guide Carrier Corporation today. We will never lose sight of our accomplishments, but instead constantly look for ways to improve our products, our environment and our world.

The Infinity Touch Control puts enhanced comfort and energy savings in your fingertips with intuitive touchscreen operation and additional features to maximize your indoor comfort experience.

Limited Warranty

This limited warranty applies to the Carrier® Infinity® Touch Control and is limited to the original consumer purchaser. This warranty is not transferable and applies only to products purchased and used in the United States. This warranty does not apply to products purchased for resale purposes.

This warranty is void if the product is not installed, operated and maintained in accordance with the manufacturer’s instructions and directions at all times. It also voids the warranty if the product is subject to abuse, neglect, improper installation, modification or alteration, electrical storms, lightning or acts of nature.

The warranty period is stated in the Warranty section of this manual. The warranty period is measured from the date of first consumer purchase. An opportunity to inspect the product before purchase is available and the product should be inspected for defects.

This warranty is null and void if the product is not installed, operated and maintained in accordance with the manufacturer’s instructions and directions at all times. It also voids the warranty if the product is subject to abuse, neglect, improper installation, modification or alteration, electrical storms, lightning or acts of nature.

When you install the Infinity® Touch Control as part of a Carrier® Infinity zoning system, you have fine-tune temperature control in up to eighteen separate rooms or zones within your home.

- **Customized Comfort**
  Separate control of multiple zones can significantly reduce hot and cold spots for more even, comfortable living. Enjoy maximum efficiency with comfort precisely where and when you need it; no more spending money heating or cooling unused rooms.

- **Customized Zone Names**
  Creating a customized name for each zone makes it easier to monitor comfort levels or create new settings for the correct area.

- **Zoned Ventilation Settings**
  To help optimize airflow, our patented fan control lets you set different fan speeds for your Infinity system at a different time schedule for each zone.

- **Flexible, Seven-Day Programmability**
  Make sure comfort and energy savings go hand in hand. Enjoy a perfect environment comfort schedule in each zone.

- **Convenience and Control**
  A smart sensor or remote room sensor in each zone monitors individual zone temperatures and allows you to adjust the temperature setting for that zone.

The baby’s room needs to be warm and cozy. The basement needs to be cool and dry, and the kitchen can be adjusted at any time. Zoning keeps the most commonly used areas of a home comfortable by delivering conditioned air where you need it most. Zoning can also offer increased energy savings by delivering comfort to the areas of the home where and when you need it.
