When you install the Infinity® Touch Control as part of a Carrier® Infinity zoning system, you have one-touch temperature control in up to eight separate rooms or zones within your home.

- **Customized Comfort**: Separate control of multiple zones can significantly reduce hot and cold spots for more even, consistent comfort.

- **CustomizedZone Names**: Creating a customized name for each zone makes it easier to monitor comfort levels or create new settings for the correct areas.

- **Zoned Ventilation Settings**: To help optimize airflow, our patented fan control lets you set different fan speeds for your Infinity system at a different time schedule for each zone.

- **Flexible, Seven-Day Programmability**: Maximize comfort and energy savings with a different comfort schedule in each zone.

- **Convenience and Control**: A smart sensor or remote room sensor in each zone monitors individual zone temperatures and allows you to adjust the temperature setting for that zone.

The baby’s room needs to be warm and cozy, the basement needs to be cool and dry, and the kitchen can be adjusted at any time. Zoning keeps the most commonly used areas of a home comfortable by delivering conditioned air where you need it most. Zoning can also offer increased energy saving benefits by delivering comfort to the areas of the home only where and when you need it.

Infinity® Air Conditioner provides reliable, high-efficiency cooling for maximum comfort and energy savings.

Infinity® Gas Furnace provides reliable, high-efficiency heating for maximum comfort and energy savings.

Exchanger System is selected to provide outdoor air and improve efficiency and years of reliable service.

Infinity Touch Control: More than just a thermostat. It’s your interface to the Infinity system that allows you to control temperature, humidity, air quality, fan speed, and ventilation.
Leaders in Technology

Over 100 years ago, a humble but determined engineer solved one of mankind’s most elusive challenges by controlling the indoor environment. A heating engineer by day, Dr. Willis Carrier would be the more than 300 patents he filed over the course of his career. His genius would enable incredible advancements in home care, manufacturing processes, food preservation, art and historical conservation, outdoor comfort and much more.

Carrier’s foresight changed the world forever and paved the way for countless innovations. Yet in addition to being an accomplished inventor, he was also an outside-the-box thinker. Carrier recognized the power and beauty of the natural environment. This Corporation of our world is a resource to continue Carrier innovation today. We will never rest on our accomplishments, but instead consistently look for ways to improve our products, our environment and our world.

The Infinity Touch Control puts you in control of your immediate comfort needs and energy savings for your home, with intuitive, enhanced comfort and energy savings at your fingertips with simple, customizable comfort settings. A complete Infinity system provides unprecedented control of not only temperature, but also humidity, air flow, weekly comfort schedules and more. This comprehensive system can even monitor and maintain dangerous levels and provide service reminders such as when it’s time to change the filter.

Easy-to-Read and Navigate

Coordinate comfort settings is as easy as 1, 2, 3 with a simple, customizable comfort system that can tell you when it’s time to change air filters, humidifier pads, UV lights or schedule regular system maintenance. The 4.3” color touchscreen with easy-to-read and navigate prompts clearly walk you through the process. Comfort prompts and icons make it easy for you to control your indoor environment without being the center of attention.

Engage your Infinity system’s energy usage and adjust control preferences on-the-go with quick-read icons and on-screen prompts. Use one-touch flexibility to reveal the control pad. Awaken the control with just a touch and seamlessly blend it into your home décor. This translates into reduced energy use and reduced temperature swings throughout the home.

Automatic, On-Screen Humidity

The Infinity Touch Control provides pop-up reminders that can tell you when it’s time to change air filters, humidifier pads, UV lights or schedule regular system maintenance. The humidity system constantly monitors indoor humidity, outdoor temperature, and has the ability to turn on your comfort system just for dehumidification in the cooling season. By connecting the Infinity Touch Control to a Wi-Fi network, you can set your comfort system to turn on just for dehumidification. The system kicks off depending on humidity levels for greater comfort. That way, your comfort system isn’t calling for cooling or heating if conditions don’t warrant it. A humidity system can tell you when it’s time to change your comfort system for humidity control and reduced energy costs.

Energy Savings Monitoring and Control

Real-time access to your Infinity system’s energy usage provides program control feedback on how your comfort settings affect efficiency. Built-in Smart Setbacks feature brings maximum comfort and performance savings to your home. Our Touch-N-Go® feature allows simple, one-touch comfort. Take control from virtually anywhere† by downloading the MyInfinity web and mobile applications, adjusting system operation from virtually anywhere.

One Touch Flexibility

Infinity Touch Control is designed to seamlessly blend into your living space. You can’t control the weather outside, but you can access your comfort system just for dehumidification in the cooling season. Allow the Infinity Touch Control to work for you to save energy.

Added Touches

You don’t lead an industry for more than 100 years by accident. Carrier has maintained its position and reputation through diligence, uncompromising attention to detail. The Infinity Touch Control adds an exceptionally beautiful and functional design to your most energy-efficient Infinity systems.

It’s About Your Comfort

The Carrier® Infinity Touch Control represents years of design, development and testing with one goal in mind — making you more comfortable. We have taken the lead in creating new technologies that deliver the comfort and efficiency you deserve while staying ahead of industry trends and global advancements.

The Infinity Touch Control, when combined with a Carrier Infinity furnace and heat pump, is a complete comfort management system. GreenSpeed® intelligence gives homeowners high-performance comfort. GreenSpeed technology constantly matches the heating or cooling demands of the home. This translates into reduced energy use and reduced temperature swings throughout the home.

You can’t control the weather outside, but you can access the latest, five-day weather forecast for your area. Weather information is targeted according to zip code.

Transform your Infinity Touch Control into a picture frame by uploading a photo, then surround it with other photo frames to let it blend in with your living space. Awaken the control with just a touch to reveal the control pad.

Limited Warranty

Carrier gives you unlimited command of comfort, performance and energy savings when you include an Infinity Touch Control. Infinity furnace or the coil, Infinity line pump or air conditioner and Infinity Humidifier to create an Infinity system. A complete Infinity system provides unprecedented control of not only temperature, but also humidity, airflow, weekly comfort schedules and more. This system can even monitor and maintain dangerous levels and provide service reminders such as when it’s time to change the filter.

Limited Warranty

Carrier gives you unlimited command of comfort, performance and energy savings when you include an Infinity Touch Control. Infinity furnace or the coil, Infinity line pump or air conditioner and Infinity Humidifier to create an Infinity system. A complete Infinity system provides unprecedented control of not only temperature, but also humidity, airflow, weekly comfort schedules and more. This system can even monitor and maintain dangerous levels and provide service reminders such as when it’s time to change the filter.
Over 100 years ago, a humble but innovative inventor set out to strengthen the bonds with the natural environment that he loved. Inventor William Carrier was a true pioneer of technology and innovation, and his contributions continue to shape our world today.

Carrier was not only a master inventor but also an avid outdoorsman and conservationist. His passion for the environment and its preservation led him to create the Carrier® humidifier, which laid the foundation for the Infinity® Touch Control—a complete Infinity system that provides unprecedented control of not only temperature, but also humidity, air flow, weekly comfort schedules, and more.

The Infinity Touch Control offers a high-resolution color touchscreen for intuitive operation and additional enhanced comfort and energy savings. It's designed to simplify your daily life and reduce your environmental impact.

**Easy-to-Understand Navigation**

Our high-resolution color touchscreen with its intuitive prompts is a breeze to operable. Quick-read icons and step-by-step instructions help get in control of your immediate comfort needs. The Infinity Touch Control provides maximum readability under a variety of lighting conditions without the fear of smudging.

**Automatic, On-Screen Reminders**

The Infinity Touch Control provides pop-up reminders that can tell you when it's time to change air filters, humidifier filters, or the high-efficiency replacement system. Beyond typical reminder functions, it goes even further with other features, such as sending real-time access to your Infinity system's energy usage to your mobile device.

**Energy Savings Monitoring and Control**

Real-time access to your Infinity system's energy usage provides cost feedback on how your setting savings affect efficiency. Built-in Smart Setbacks feature brings comfort levels back to programmed settings while saving energy.

**Simple, Customizable Comfort**

Coordinate comfort settings up to eight zones with full seven-day programmability. Simple, on-screen prompts walk through this process. Comfort programming can improve energy efficiency by delivering comfort when you need it and energy savings when you save. A separate vacation mode lets you enjoy even more savings when you are out of town without re-programming your comfort settings.

**Take Control from Virtually Anywhere**

By connecting the Infinity Touch Control to a Wi-Fi network with the included wireless router, you can enjoy the control directly from your web-enabled device. Access to the control from your mobile device allows you to quickly and easily make adjustments for greater comfort or energy savings as your needs change.

**One Touch Flexibility**

Our Touch the Gut feature allows simple, one-touch operation for controlling your comfort. Your comfort needs change, and so can your system. Greenspeed intelligence is designed to keep you comfortable and save you energy.

**Limited Warranty**

Carrier gives you unlimited command of comfort, performance and energy savings when you include an Infinity® Touch Control. Infinity furnace or fan coil, Infinity heat pump and compatible control to create a complete Infinity system. A complete Infinity system provides unprecedented comfort of not only temperature, but also humidity, air flow, weekly comfort schedules and more. This smart system can even monitor operation and maintenance items and provide service reminders such as when it's time to change the filter.

You don't lead an industry for more than 100 years by accident. Carrier has maintained its position and reputation through diligent, uncompromising attention to detail. The Infinity Touch Control adds to and fortifies Carrier’s commitment to excellence by using the most energy-efficient Infinity systems.

You can’t control the weather outside, but you can access the latest, five-day weather forecast for your area. Weather information is targeted according to zip code.
Carrier gives you ultimate command of comfort, performance and energy savings when you include a Carrier® Infinity Touch Control. Infinity Touch controls are the most customizable Infinity system control on the market today, allowing homeowners to match their home interior and their personal preference. Your ability to remotely access and adjust the settings of the Infinity Touch Control with the MyInfinity web and mobile applications is dependent on the optional labor warranty. See warranty certificate at carrier.com for complete details and restrictions. Be sure to ask your Carrier dealer about optional labor warranties.

It's About Your Comfort

The Carrier® Infinity Touch Control represents years of design, development and testing with one goal in mind — making you more comfortable. We have taken the lead in creating new technologies that deliver the comfort you deserve while staying ahead of industry trends and global challenges.

The Infinity Touch Control, when combined with a Carrier Infinity furnace, high-efficiency heat pump and Carrier Greenspeed® intelligence, gives homeowners high performance comfort. Greenspeed intelligence constantly matches the heating or cooling demands of the home. This translates into reduced energy use and reduced temperature swings throughout the home.

The Carrier HYBRID HEAT® dual fuel system delivers peace of mind to homeowners who are concerned about the unpredictable nature of utility costs. This system pairs a gas furnace with an electric heat pump and compatible control to provide comfort, economy and flexibility. Your Carrier HYBRID HEAT dual fuel system will automatically switch between electric and gas heating as needed to keep your home comfortable all winter long while optimizing the efficiency of each fuel source.

You can’t control the weather outside, but you can access the latest, five-day weather forecasts for your area. Weather information is targeted according to zip code.*

Transform your Infinity Touch Control into a pristine frame by uploading a photo, then surround it with other photo frames to let it blend in seamlessly into your living space. Awaken the control with just a touch from any room in your house.

These included faceplates – silver, black and white – allow you to change the color of the Infinity Touch Control to best match your home interior and your personal preference.

The Carrier® Ideal Humidity System® gives homeowners high-precision humidification in the heating season. The Carrier HYBRID HEAT® dual fuel system provides maximum readability under a variety of lighting conditions without being the center of attention.

The Carrier® Ideal Humidity System® gives homeowners high precision humidification in the heating season with just a touch. And adjustable brightness control prompts is a breeze to operate. Quick-read icons and prompts clearly walk you through the process. Comfort settings change.

Any year long, humidity affects the conditions without being the center of attention.

You can’t control the weather outside, but you can access the latest, five-day weather forecasts for your area. Weather information is targeted according to zip code.*

Willing Carrier’s meticulous attention to quality and detail led to a major culture shift in the way we live indoors. More than a century later, Carrier Corporation operates with a unique willingness to develop new technology, the confidence to revise proven designs and the ability to deliver results with every new installation.

Part of that equation is our nationwide network of experts you can turn to for all of your indoor comfort needs. Your local Carrier dealer is well equipped to evaluate your home – everything from size, window placement, ductwork, venting and other structural specifics – and create a customized system designed around your lifestyle. So when it’s time to make a choice for your family’s comfort, make the best decision you’ll ever make – Carrier – and let the experts do the rest.

The Total Indoor Comfort System

- Infinity® Air Conditioner provides reliable, high-efficiency cooling for long-lasting comfort and energy savings.
- Infinity Gas Furnace provides reliable, high-efficiency heating for long-lasting comfort and energy savings.
- Evaporator Coil is matched with the proper outdoor unit to provide top cooling efficiency and years of reliable service.
- Infinity Air Purifier improves air quality by capturing and killing airborne bacteria and viruses and other irritating airborne pollutants in your home.
- Zoning combines fresh air with conditioned air for improved air quality and comfort.
- UV Lamp inhibits the growth of contaminants on the indoor coil, leaving your home with cleaner, fresher indoor air.
- Infinity Touch Control is more than just a thermostat. It’s your interface to the Infinity system that allows you to control temperature, humidity, air quality, fan speed and ventilation.
