

Carrier Rental Systems

Engineering Turnkey Solutions for Temporary HVAC-Related Requirements

Immediate Response to Emergency or Planned HVAC Conditions Nationwide

Turnkey Solutions... Anywhere. Anytime.

Whether it's an immediate response to failed equipment, a strategically-planned shutdown or a special event, Carrier Rental Systems can deliver complete, temporary application-specific HVAC solutions - whenever and wherever needed.

From engineering your specific system through set-up, operation, maintenance and decommission, we provide comprehensive and seamless turnkey solutions.

Should your facility require comfort or production cooling, heating, dehumidification or supplemental power — whether you're handling a sudden crisis or taking advantage of a sudden opportunity — the Carrier Rental Systems fast-ship program means your solution will be immediately available, and tailored to your exact requirements.

Our portable HVAC and HVAC system-related equipment, includes skid-, trailer- and container-mounted, and modular units arrive at the job site fully tested and with all of the appropriate accessories.

Common HVAC Challenges Suited to Rental Solutions

HVAC Challenge	Carrier Rental Systems Solution
Equipment Failure	<i>Immediate back-up comfort and/or process HVAC</i>
Planned Shutdown	<i>Maintain uninterrupted pre-existing conditions during scheduled downtime</i>
New Construction	<i>Supplemental HVAC during expansion/equipment installation</i>
Supplemental Services	<i>During extreme climate events, peak production times, seasonal highs and lows</i>
Special Events and Projects	<i>High occupancy occasions such as graduations and sporting events; special needs such as film locations, tents, ice rinks</i>
Capital Constraints	<i>Provide suitable conditions without large capital investment during times of economic uncertainty</i>

Carrier Rental Systems

Engineered Solutions

With the most progressively trained service technicians in the industry and extensive experience in coordinating the required trades on site, Carrier Rental Systems has the expertise to integrate the equipment effectively and ensure that it is maintained appropriately for the duration of your project.
